NOTE: ALL PRICES GIVEN ARE EX GST

Our 2019 pricing structure works as follows:

Initial **Supervisor Registration Licences** – paid in the FIRST YEAR ONLY - at STARTUP.

The IndTech and LiTE products include a Supervisor licence – IndTECH (1) and LiTE (1)
These two products CAN NOT have additional Supervisor licences added.

The PLUS and STEMM products DO NOT include initial Supervisor licences.
These two products MUST purchase Supervisor licences at STARTUP – additional to the Curriculum pack annual subscriptions.

An annual SUBSCRIPTION is allocated to each training unit across the product range – it is invoiced annually.
EACH training unit's Annual SUBSCRIPTION is a SET LIST PRICE = \$20 per unit per year.

Units in Curriculum packs attract a 25% discount – \$15 per training unit per year, when the ENTIRE pack is purchased.
Eg. entire x6 units in the pack = \$90 per year.
Where a school only needs to subscribe to one or two units in a specific pack, these units will cost \$20 per training unit, per year. Eg. x2 units = \$40 per year.

The annual SUBSCRIPTION covers you for upgrades to the LMS, new SOP's and technical support.
